Milestone:

A milestone is a specific point within a project's life cycle used to measure the progress toward the ultimate goal. Milestones in project management are used as signal posts for a project's start or end date, external reviews or input, budget checks, submission of a major deliverable, etc.

Activity list:

An activity template is a set of activities listed on an existing contact, company or project blog that have been saved into a reusable template. With a single-click this saved copy AKA "template of activities" can then be inserted onto other contacts, companies, or project blog pages at any time.
